

Helical Antenna

*** Features ***

- **High Gain**
- **Low VSWR**
- **Circle Polarization**
- **Mast Mounting**

*** Application ***

- **2.4GHz WLAN System**
- **Point to multipoint system**
- **Point to point system**
- **Terminal antenna**
- **TX antenna for the above 40 levels**

Technical Parameter	
Model	SNC2416-A
Frequency Range MHz	2400 ~ 2500
Gain -dBi	14
Vertical Beamwidth°	27°
Horizontal Beamwidth°	27°
VSWR	≤1.5
F/B Ratio -dB	≥20
Polarization	Circle Polarization
Max Power-W	100
Nominal Impedance- Ω	50
Connector	N female
Antanna dimension - cm	50
Weight- kg	1.25
The Work Temperrature - °C	- 30° ~ 60°
Rated Wind Velocity - m/s	60
Mounting Mast Diameter - mm	Φ30 ~ 50
